

## Small/Rural Hospitals Recognized Nationally for Promoting Organ, Eye, and Tissue Donation

The 314 small/rural hospitals listed below were recognized by the Health Resources and Services Administration (HRSA), U.S. Department of Health and Human Services, for their admirable efforts to save and enhance lives by promoting organ, eye, and tissue donation through the 2018 National Hospital Organ Donation Campaign.

Each hospital conducted outreach and awareness activities to educate staff, patients, visitors, and community members about the critical need for donors and encouraged them to sign up in their state donor registry. Hospitals earned points for each activity implemented and each person who registered as a donor between October 2017 and April 2018. Based on their point total, hospitals could earn platinum, gold, silver, or bronze level recognition. Hospitals worked closely with their organ procurement organizations and Donate Life America state teams. Many state hospital associations also were involved.

Participation by small/rural hospitals increased by 10 percent this year, outpacing overall campaign participation growth of 9 percent. In total, 1,283 hospitals throughout the nation, Puerto Rico, and the Virgin Islands participated in the campaign.
