

# 2021 Hospital Campaign for Organ Donation

## Recognition for Outreach

The hospitals and community partners listed below earned platinum recognition for their efforts to educate their communities about organ, eye, and tissue donation during the COVID-19 pandemic. Working closely with organ procurement organizations (OPOs), Donate Life America (DLA) state teams, and state hospital associations, these partners, which include transplant centers and hospitals designated as small or rural by the American Hospital Association, generated more than 27,000 donor registrations between October 1, 2020 and April 30, 2021. OPO, DLA, and hospital association participation is indicated in the title line for each state. The number of partners recognized in each [OPO service area](#) is listed at the end of the document.
